

HEALTH AND SAFETY OF OUR MEMBERS AND GUEST IS #1 ...

- ◆ An inherent risk of exposure to COVID—19, Delta, Omicron, as well as other infectious diseases, exists in any public space or place, where people gather. According to the CDC and TXDSHS, COVID and its variants, are easily spread and senior citizens and those individuals with underlying medical conditions, are particularly susceptible to its effects, which could result in serious illness or death.
- ◆ The Texas Recreation and Park Society (TRAPS) has endeavored to incorporate **reasonable practices**, adhering to approved and existing national, state and local guidelines, in an effort to limit the spread of COVID and variants; however, TRAPS cannot guarantee that one will not get exposed to or ill from the virus.
- ◆ By registering/attending a TRAPS event (e.g., institute, maintenance rodeo etc.), you voluntarily assume all risks related to exposure to COVID-19, as you would with all risk associated with attending a TRAPS event, which includes, but is not limited to injury, theft and property damage.
- ◆ Additionally, TRAPS event participants are asked to do their part by wearing face coverings; conscientiously practicing safe distancing (physical/social), frequently washing hands, utilizing hand sanitizer, entering and/or exiting rooms/event space as designated, and complying with all signage or event personnel requests.
- ◆ **Covid Precautions:** As you know by now, Covid/Omicron cases are currently surging. College Station is currently (1.14.22) at a “high” risk level. TRAPS plans on having the annual Institute and EXPO in person and will make every attempt to social distance during meetings. Masks are strongly encouraged, but not required. We understand if anyone decides to stay home. If you do so, please make sure to call the hotel to cancel your room.
- ◆ **Please note:** *For those planning on attending in person, please exercise personal responsibility in ensuring your safety and the safety of those around you. TRAPS encourages those that are unvaccinated or that want to take an extra measure of precaution to wear a mask in indoor meetings and when it is not possible to social distance outdoors. If you are feeling sick or unwell, please stay home.*

A&M hotel is encouraging guests to wear their masks, unless actively eating or drinking
